

CITY OF VALENTINE

APPLICATION FOR CITY UTILITIES

4757

TERMS AND CONDITIONS

The City of Valentine (City) is hereby requested to provide utility service at the location herein described (the premises), and to furnish, own and maintain metering equipment located up to and on the premises. As a condition to such service, it is understood and agreed as follows:

1. All private service lines, piping, electric appliances or equipment (excluding metering equipment) located on or within the premises shall be owned, maintained and controlled by the Customer and/or premises' owner. Except as otherwise required by law, the City does not undertake to, or assume the obligation for, the inspection, testing, maintenance, or repair of equipment or facilities not owned by the City.
2. The customer agrees to pay for electric, water, sewer, and solid waste disposal services at the City's established rates as amended and changed from time to time, plus all applicable sales tax. The City may require from the Customer a cash deposit sufficient to secure the City in payment of such sums, which may become due by the Customer to the City. The Customer further agrees to abide by the City's present and future rules as a condition of utility service. The utility bills are due upon receipt each month, and delinquent within ten days of the mail date. The policy for disconnection of services of non-payment is adopted within Nebraska State Statutes.
3. The Customer agrees that the City will have the right of access to the Customer's premises at reasonable times for the purpose of installing, reading, inspecting, testing, maintaining or repairing metering and regulation equipment, or for the purpose of removing its property, and for all other proper and lawful purposes.
4. The City shall not be liable for damages due to interruption in service and the Customer shall hold the City harmless from any and all claims or liabilities for damage or injury to persons or property which may arise out of or caused by the construction, maintenance, use or operation of service lines, piping, facilities, equipment or appliances which are located on the premises.
5. The Customer shall properly protect the City's property located on the premises from loss or damage.
6. In the event the Customer moves to a different location than stated below, the customer will be held liable to the City for all service received at the vacated location until payment has been made.
7. Forms are available at the Customer's request regarding budget billing and third party notification.
